

MOTION on NOTICE

Submitted at the Regular Park Board Meeting on February 2, 2026

2030–2038 Barclay Street Rezoning Impacts on Stanley Park

SUBMITTED BY: Commissioner Bastiovanszky

WHEREAS

1. The City of Vancouver is currently advancing a rezoning application for a large-scale hotel redevelopment at 2030–2038 Barclay Street, proposing the replacement of an existing low-rise residential building with a significantly intensified commercial hotel use; and
2. The proposed redevelopment is located immediately adjacent to the western edge of Stanley Park, raising potential implications for park access, traffic circulation, emergency egress, pedestrian and cycling safety, environmental interface, and heritage trees along the park boundary; and
3. Park Board planners have indicated that while feedback may be provided through the City's internal review process, the Park Board does not currently have a formal public forum to review or discuss the impacts of adjacent non-park developments on park lands and operations; and
4. Community members and local media have raised concerns regarding the scale of the proposed hotel, increased congestion, neighbourhood impacts, and precedent-setting development pressure at the edge of Stanley Park, including:
 - i. City rezoning application: large-scale hotel redevelopment at 2030–2038 Barclay Street
 - ii. Community coverage and concerns:
 - iii. <https://www.vancitylookout.com/p/west-end-residents-organize-against-barclay-street-hotel>
 - iv. <https://www.thewestendjournal.ca/blog/2025/10/1/a-closer-look>
 - v. <https://stop2030barclay.ca/>
 - vi. <https://bcitnews.com/west-enders-fight-to-keep-high-rise-hotel-out/>
5. As the elected body with statutory responsibility for the stewardship, protection, and operation of Vancouver's parks, the Park Board has a public interest in understanding how adjacent developments may affect Stanley Park and associated infrastructure.

THEREFORE BE IT RESOLVED

- A. THAT the Vancouver Park Board request a formal briefing at a Committee meeting on the proposed rezoning and hotel redevelopment at 2030–2038 Barclay Street;
- B. THAT City of Vancouver staff from Planning, Engineering, and relevant departments be requested to present on the potential impact on:
 - i. traffic flow affecting Stanley Park access points;
 - ii. emergency access and egress;
 - iii. the environment and heritage trees along the park boundary;
 - iv. pedestrian and cycling safety; and
 - v. park-adjacent infrastructure;
- C. THAT staff report back on the scope of Park Board jurisdiction, consultation authority, and potential safeguards available when major developments occur immediately adjacent to park lands.
- D. THAT the Park Board requests that City Council receive the report from Park Board on the impact to Stanley Park prior to review the proposed redevelopment.
