

ELECTRIC COMMUTER FERRY SERVICE ADJACENT HARBOUR GREEN PARK

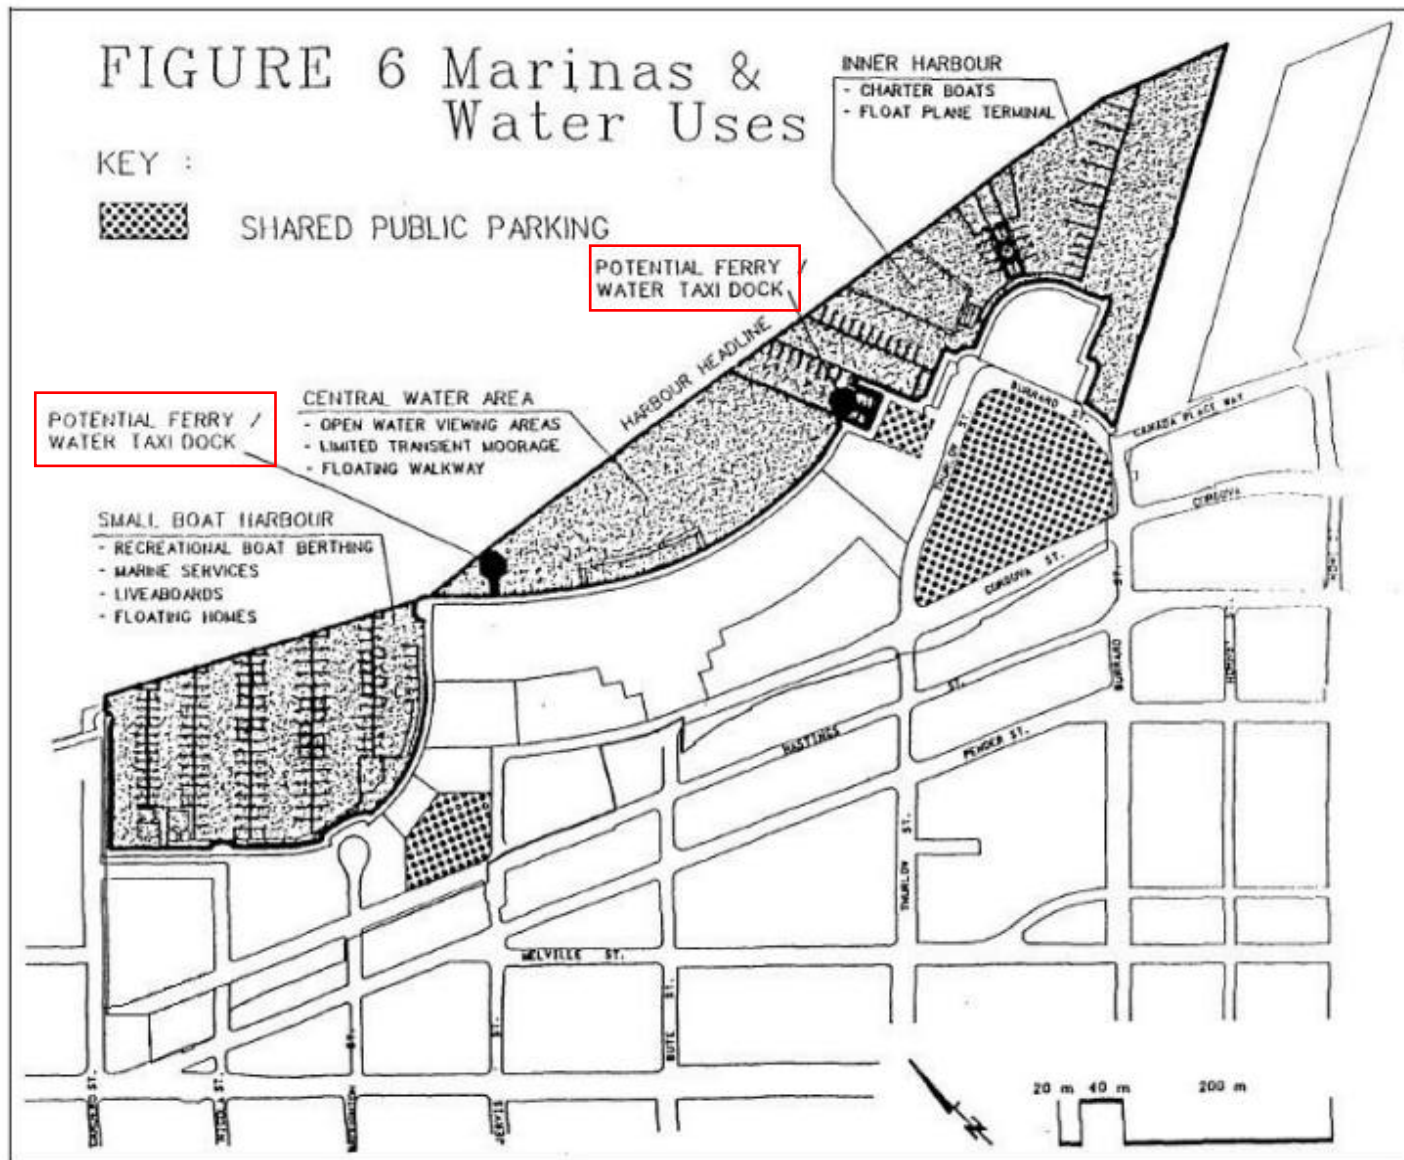

Park Board Committee Meeting

Monday, April 13, 2026

- Seek Park Board endorsement of concept to enable a commercial electric foot passenger ferry service to operate adjacent Harbour Green Park, while continuing to provide public amenities for moorage of recreational watercraft and a public viewing platform
- Outline proposed approach
- Overview of next steps

Coal Harbour ODP and Harbour Green Dock

Proposal Overview

- All-electric passenger ferry service connecting downtown Vancouver, Bowen Island, and the Sunshine Coast
- Service would operate from a landing location adjacent Harbour Green Park
- Proposed infrastructure
 - electric passenger vessels
 - a floating charge barge
 - associated dock infrastructure
 - electrical and utility servicing
 - public viewing and recreational boat moorage in alignment with Coal Harbour ODP requirements

CIRQL Ferries
Proposal
Received

March 2025: Began work with CIRQL

Technical
Feasibility
Review

2025 Q4: Completed preliminary feasibility review of Harbour Green Dock

Ongoing: Coordination underway with CIRQL Ferries, BC Hydro, and internal staff

Partners and
Interest
Holders

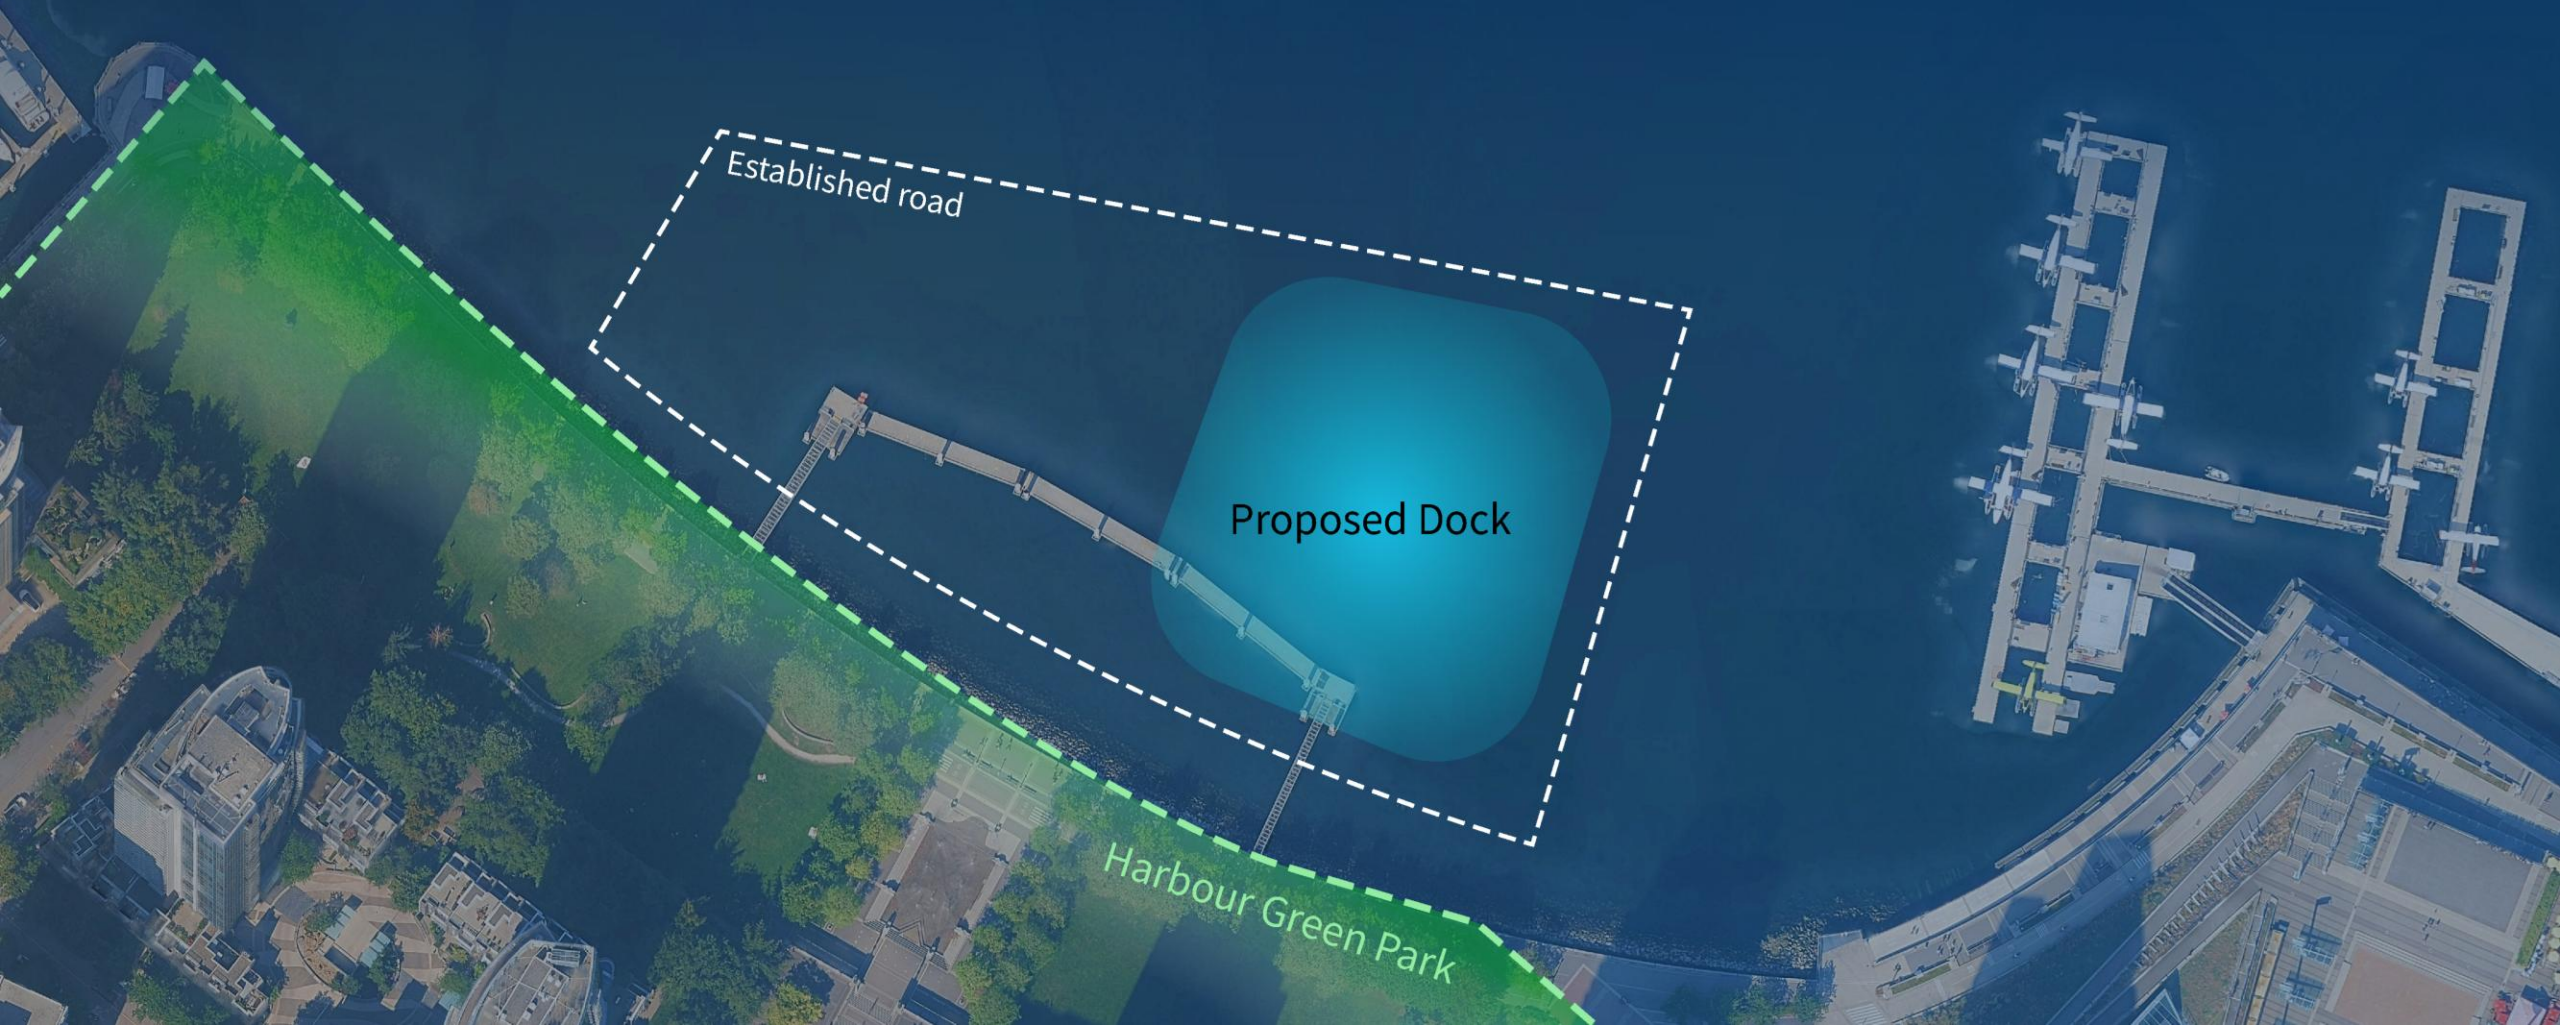

Ongoing: CIRQL Ferries has engaged with local Nations and has undertaken public market research for their service.

Ongoing: Notification from City to local Nations. City public notifications planned.

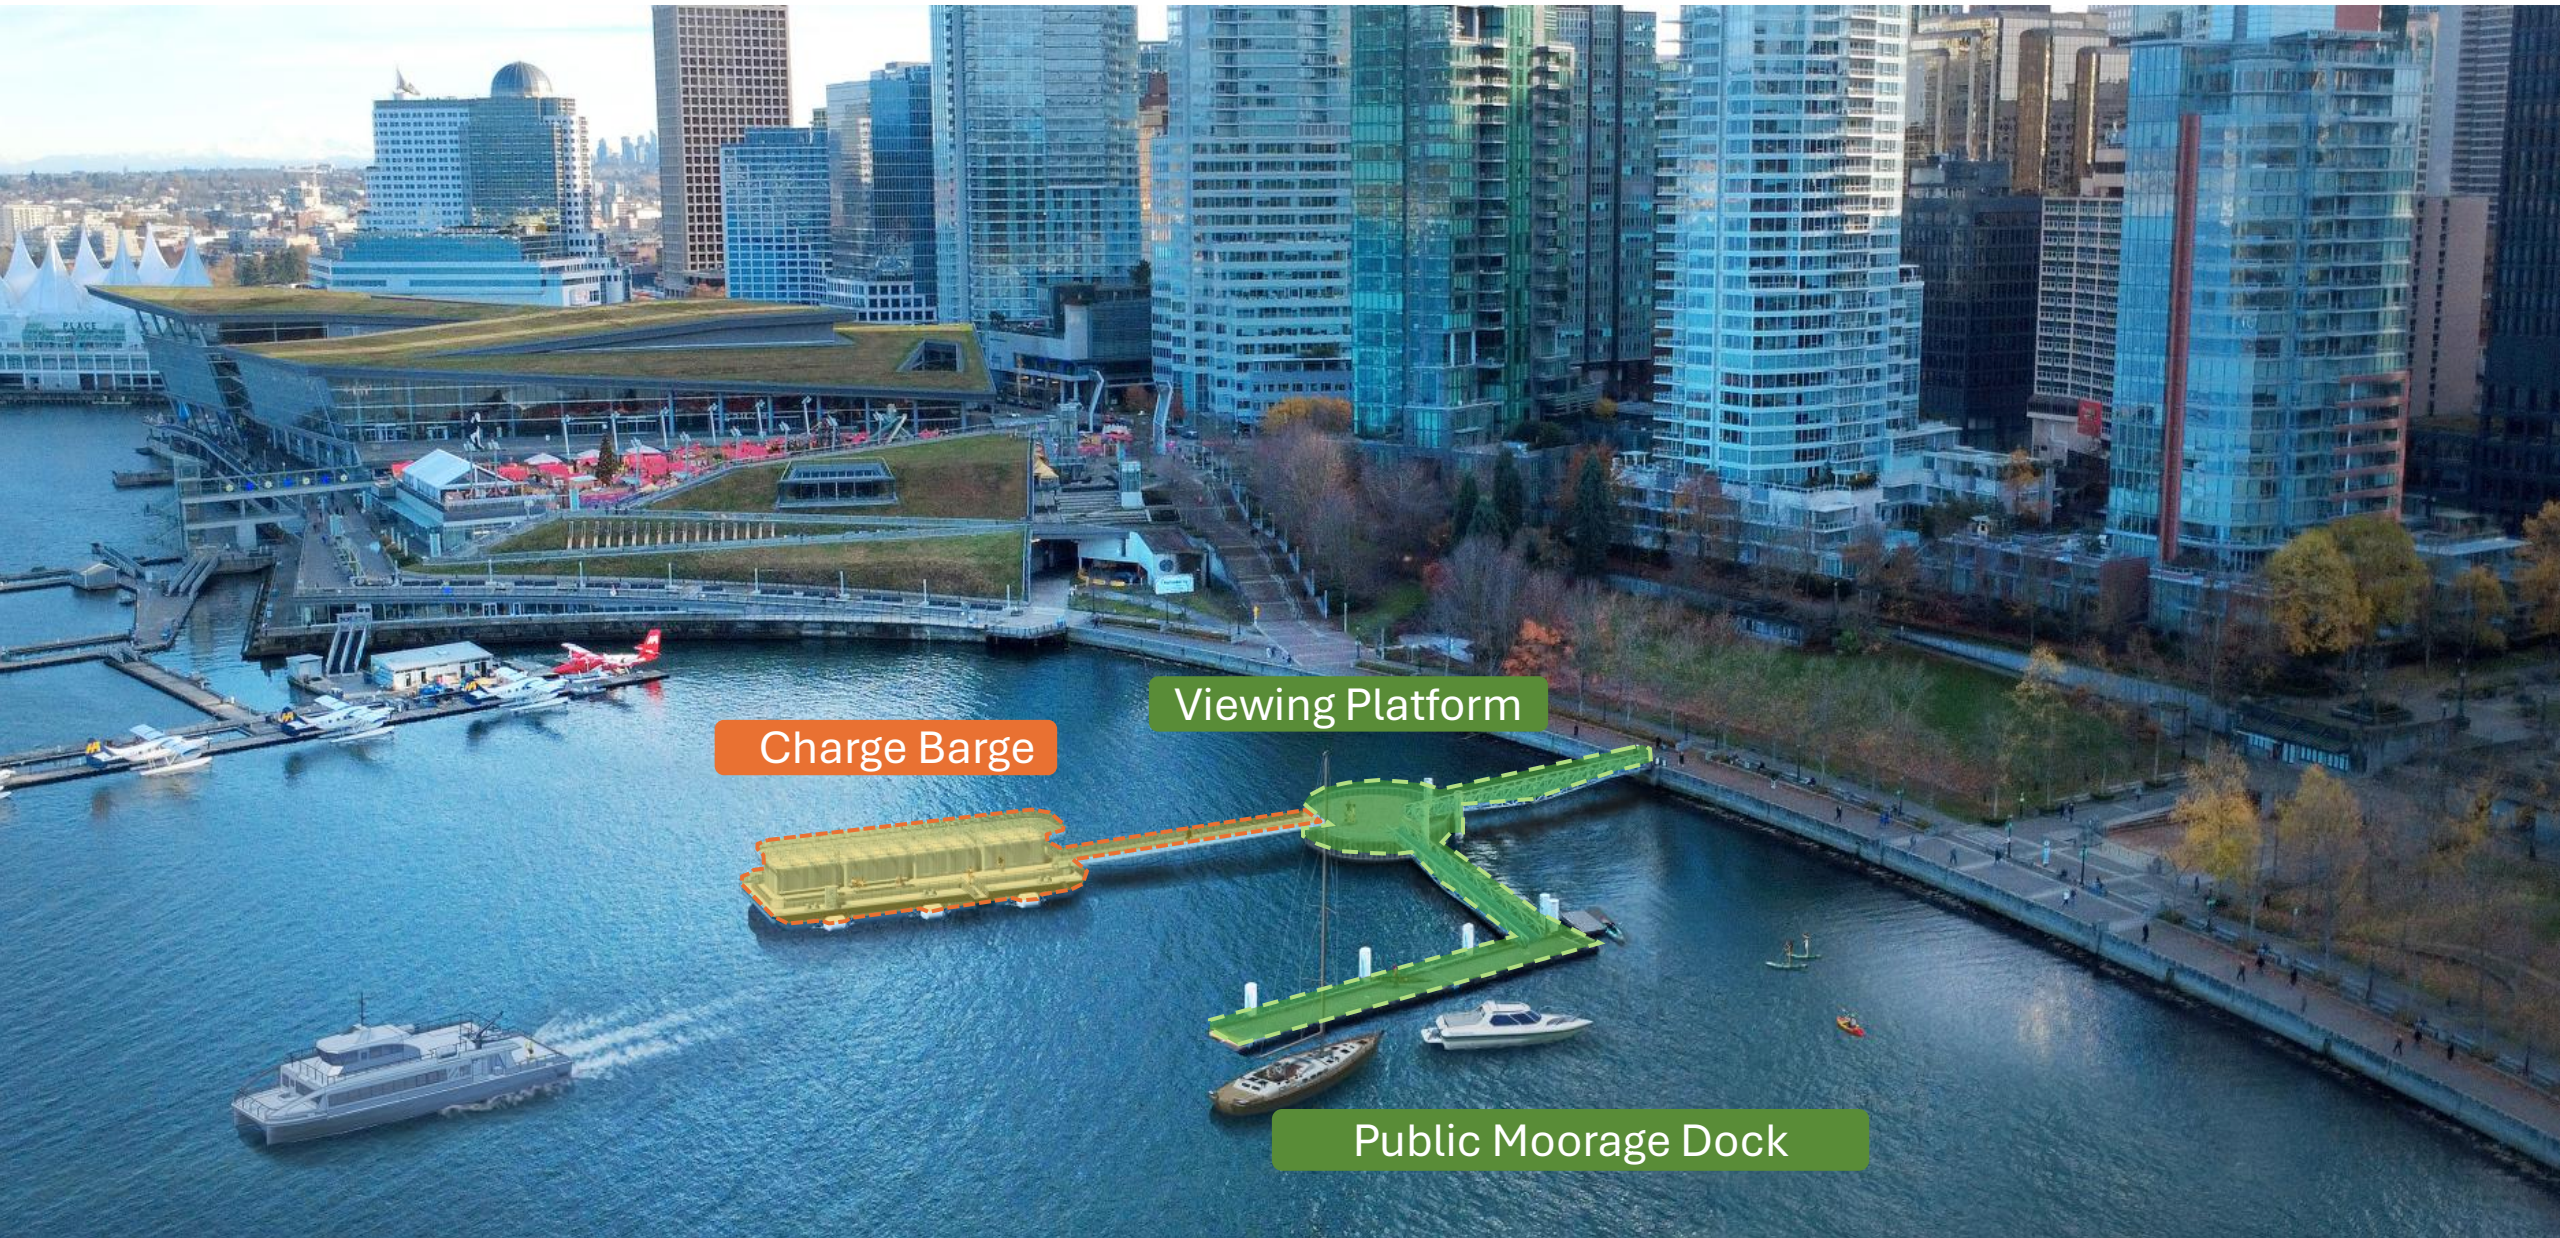

Park Board
Decision

Today: Seeking Board decision to transfer operation and maintenance responsibilities of the dock to the City, enabling City staff to negotiate terms of agreement and manage next steps

Project Location

Proposed Concept

Party Responsibilities and Next Steps

Park Board

- Develop MOU to transfer management, maintenance and operation of Harbour Green Dock to COV Engineering Services
- Park Board GM concurrence on Agreement between City and CIRQL
- Review new infrastructure placement to limit impacts to Park space while supporting new activation of the area

City of Vancouver

- Negotiate and execute agreement with CIRQL
- Review and permit infrastructure upgrades
- Explore opportunities for the City to provide operational support for the publicly accessible infrastructure
- Procurement per City procurement policy

CIRQL Ferries

- Design and construct required infrastructure per permits and regulatory requirements
- Operate and maintain all infrastructure
- Provide ongoing public amenities
- Share revenue with the City
- Continue to engage with local Nations
- Target date for ferry service: 2028

Recommendations

- A. THAT the Vancouver Park Board endorse the concept of changes to Harbour Green Dock to enable a commercial electric foot passenger ferry service to operate at the site while continuing to provide a public amenity for recreational watercraft moorage and a public viewing platform;
- B. THAT the Vancouver Park Board indicate their support for City staff to negotiate, to the satisfaction of the City Engineer and the City's Director of Legal Services, and in consultation with the Park Board's General Manager, and enter into an agreement with CIRQL Ferries Incorporated to deliver the services and amenities described above, subject to the agreement being within the parameters outlined in this report;
- C. THAT, subject to the execution of the agreement described in Recommendation B, the Vancouver Park Board direct staff to prepare a Memorandum of Understanding with City departments confirming that ownership, operation, and maintenance responsibilities for Harbour Green Dock and supporting infrastructure shall henceforth be held by Engineering Services, reflecting the transportation-primary focus of the amenity and the City's water lot tenure;
