

# **SOUTH VANCOUVER PARK AMENITIES**

## Concept Plan

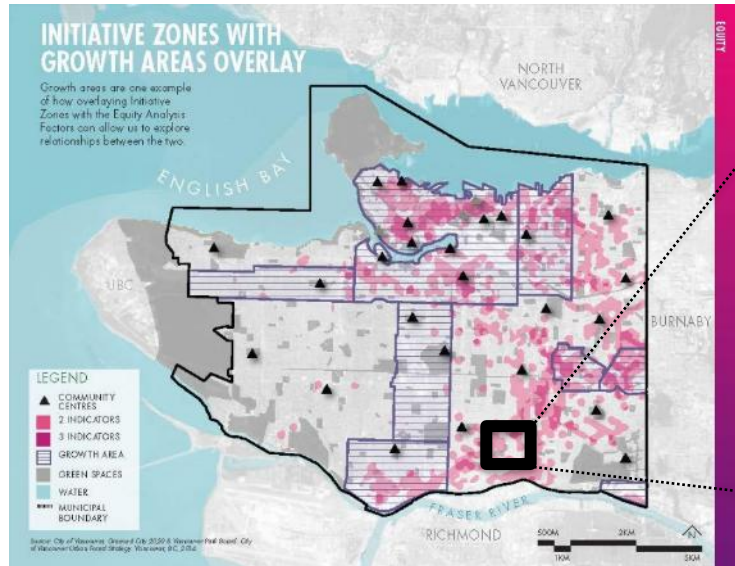

Park Board Committee Meeting  
Monday, April 13, 2026

- The purpose of this presentation is:
  - To provide background and detailed information on the proposed concept plans for Moberly Park and Ross Park Amenities
  - To share results of the public engagement process
  - To seek a Board decision on the proposed concept plans to advance detailed design followed by construction

# Background – Context Information

The neighbourhood surrounding Moberly Park and Ross Park is an Equity Initiative Zone based on two key indicators of tree canopy gaps and high demand for low barrier recreation services

# Moberly Park Background – Context Information

The Sport Field Strategy, Big Move #5, prioritizes the development of a field hockey specific pitch in South Vancouver.

The 2024 South Vancouver Park Amenities Board decision identified Moberly Park as the location.

The Moberly Park concept plan contributes to a vibrant and inclusive park that supports field hockey and other recreational activities.

# Moberly Park Amenities - Concept Plan

- 1 Maintenance and emergency vehicle access
- 2 Synthetic turf warm-up area
- 3 Accessible walking loop
- 4 Terraced spectator seating
- 5 Flexible open space
- 6 Existing grass sports field
- 7 Players and officials shelter
- 8 Existing playground
- 9 Fieldhouse with changing rooms and public washrooms
- 10 Synthetic turf field hockey pitch

-  Field light
-  Pedestrian light
-  Park bench
-  Seatwall with wood bench top

# Moberly Park Reference Images

Field hockey pitch

Field lighting

Fieldhouse exterior: painted block

Interiors: washrooms

Looping park path and seating

Terraced seating on slope

Misting station

Interiors: changerooms

# Ross Park Background – Context Information

Improvements at Ross Park are in response to 2023 and 2024 Park Board Motions on the provision of park amenities in South Vancouver.

The Ross Park concept plan replaces aging features and improves recreational amenities by creating a recirculating spray park, renewed playground and new washroom building in support of a growing and diverse neighbourhood.

# Ross Park Concept – Site Plan

## Playground

Climbing Areas

Trampolines

Spinner

Refurbished swings

## Spray park

Splash bucket

Overhead spray

Tot zones

Ground sprays

# Public Engagement

2023

## Sunset Neighbourhood Engagement

High level support received during community engagement, with stated priorities for:

New synthetic turf field

Walking loops

Playground

Open/natural grass area

2025

## Public Information Sessions

Two public information sessions with around 70 attendees and hosted at the following organizations:

Moberly Arts and Cultural Centre

South Vancouver Neighbourhood House (SVNH)

## Additional Public Outreach

Moberly Park

A preview of the Moberly field and fieldhouse concept shared with field hockey user groups in March 2026.

Ross Park

David Thompson Secondary students, participating in an initiative run by Mela City funded by the City's Building Safer Communities Project at SVNH, shared their visions for the park.

| Project                                                                                | Approved Funding Source          | Total Project Costs |
|----------------------------------------------------------------------------------------|----------------------------------|---------------------|
| Moberly Turf Field and Fieldhouse                                                      | Growing Communities Fund         | \$13.6M             |
| Ross Spray Park and Washroom Building                                                  | Growing Communities Fund         | \$4.2M              |
| Additional Park Amenities (Ross Park playground renewal and Moberly Park walking loop) | Capital Plan - existing accounts | \$0.8M              |
| <b>TOTAL</b>                                                                           |                                  | <b>\$18.6M</b>      |

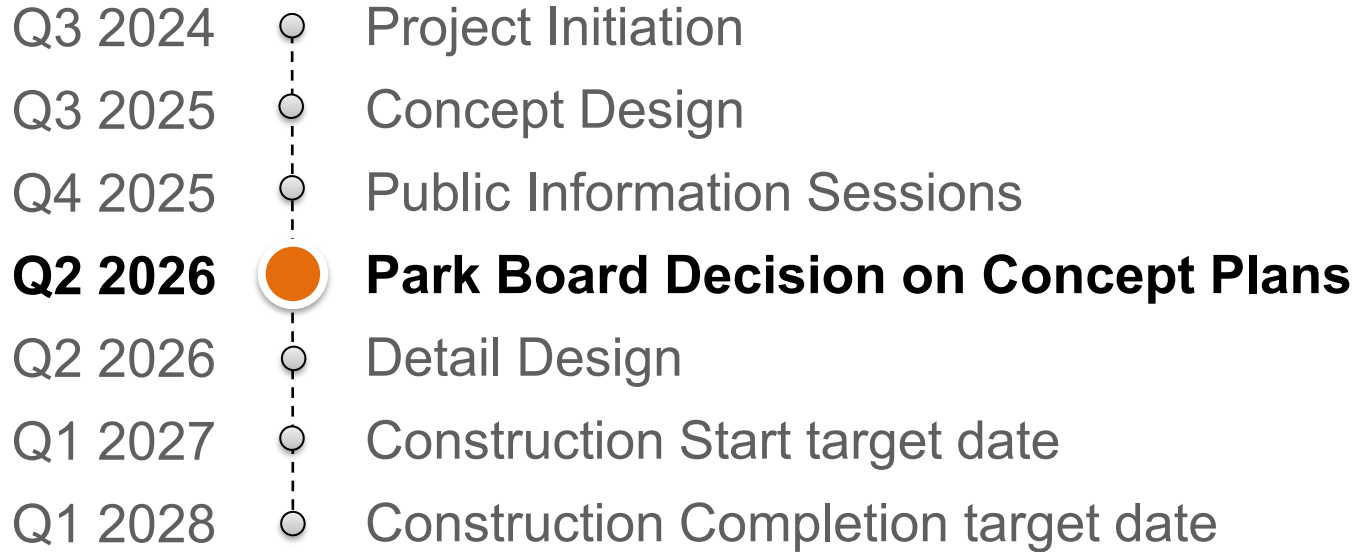

## Operating Costs for Moberly Park Amenities

General maintenance costs for synthetic turf fields can reach up to \$60K annually, excluding hard asset repairs (e.g. fencing, drainage, asphalt etc.). Should the project be approved, the operation budget would require a one-time cost for specialized maintenance equipment acquisitions estimated at \$75K.

## Operating Costs for Ross Park Amenities

The initial estimate for the operating impacts to capital budget is calculated as 5% of the estimated project construction cost or \$85K per year upon project completion.

# Project Timeline and Next Steps

## Next Steps:

- Secure Development and Building Permits for sport lighting and buildings
- Explore innovative contracting opportunities to potentially help shorten the overall project timeline
- Notify public through onsite signage, project webpage and emails

- A. THAT the Vancouver Park Board approve the proposed concept plan for the Moberly Park amenities including a new synthetic turf field, a new fieldhouse and a new walking loop as described in this report.
- B. THAT the Vancouver Park Board approve the proposed concept plan for the Ross Park amenities including a new spray pad, a new washroom building and playground renewal as described in this report.
